

PURPOSE-BUILT CORRIDOR RECOVERY

Keeping Western Canada's transportation and utility corridors open.

ASSESS • REMOVE • RECOVER • RESTORE

TRANSPORTATION • HYDRO • RAIL • MUNICIPAL INFRASTRUCTURE • EMERGENCY RESPONSE

WHEN THE FIRE IS OUT...

...THE WORK IS JUST BEGINNING.

Burned corridors continue to experience:

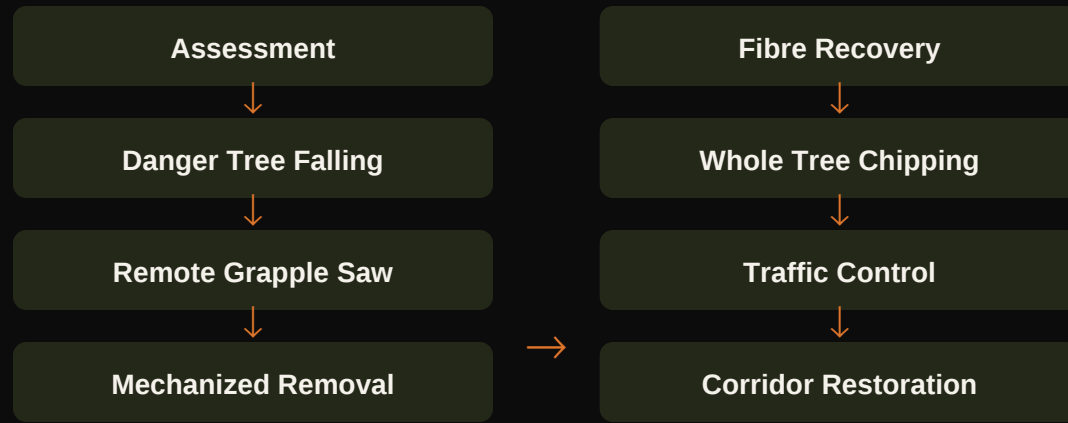

- Delayed hazard tree failures
- Power interruptions
- Highway closures
- Falling debris
- Public safety risks
- Restricted emergency access

Rossco's Forest Health provides one integrated team to restore safe public access quickly and efficiently.

ONE CONTRACTOR. COMPLETE CORRIDOR RECOVERY.

Instead of multiple contractors...

One mobilization.
One traffic control plan.
One project manager.
One accountable contractor.

BUILT FOR TRANSPORTATION

- PURPOSE BUILT
- LOW GROUND PRESSURE
- REDUCED LANE CLOSURE TIME
- REMOTE OPERATION
- REDUCED WORKER EXPOSURE
- TRAFFIC CONTROL INTEGRATION
- EMERGENCY RESPONSE READY

PROVEN ON SOME OF CANADA'S MOST CHALLENGING CORRIDORS

- Jasper National Park
- Banff National Park
- Waterton Lakes National Park
- Provincial Highways
- Utility Corridors
- Wildfire Recovery
- Storm Response

People hire experience.

Debris moves as fast as it comes down — grapple skidders keep the running surface clear so the corridor reopens behind the crew, not after it.

RECOVER THE RESOURCE

Instead of burning everything...

- Recover merchantable timber
- Recover biomass
- Recover fibre
- Reduce roadside fuel loading
- On-site air-curtain disposal — smoke managed
- Cleaner corridors
- Lower disposal costs

CORRIDOR RESPONSE UNIT

WHEN WILDFIRE OR WINDSTORM HITS...

- ✓ Certified Wildlife Danger Tree Assessors
- ✓ Certified Danger Tree Fallers
- ✓ BC Certified Utility Arborists
- ✓ Remote Grapple Saw Operations
- ✓ Mechanized Hazard Tree Removal
- ✓ Wildlife Tree Retention & Creation
- ✓ On-Site Fire Suppression — FYREBX
- ✓ Fibre Recovery
- ✓ Whole Tree Chipping
- ✓ Air-Curtain Burning — Smoke Management
- ✓ Traffic Control
- ✓ Public Safety Signage
- ✓ Corridor Restoration

CRITICAL INFRASTRUCTURE CORRIDOR RECOVERY

Mobilized crews, wheeled equipment, and one accountable team — ready when the corridor can't wait.

READY WHEN CORRIDORS NEED TO REOPEN

Transportation agencies • Hydro & utility operators • Railways • Municipalities • Emergency Management • Industrial operators • Parks agencies

“We need the highway reopened.” “We need the line back online.”

ONE CALL MOBILIZES THE ENTIRE SYSTEM.
